Start one of the unique adventures into the Egyptian desert with an amazing three-day, two-night vacation from Cairo. You will have an amazing trip to the White Desert with Cairo Top Tours. In addition to being a model of the Kama Karst phenomenon, it is a desert and landscape reserve that houses prehistoric relics and is regarded as an open museum for the study of the desert environment, geographical phenomena, fossils, and animals. The reserve is distinguished by the geological formations of limestone and Cretaceous rocks, as well as the fossils they hold, and the beauty of the dune landscapes.

Also the White Desert is located 38 km northwest of the center of Farafra (and has the Jara Cave within the Western Obstacle Mountain), and is called the White Desert because its soil is snow-white chalk and there are geological units in the form of chalk columns and mushrooms formed as a result of aeolian factors, which gives the region an unusual geological situation.

Our next stop will be the Bahariya Oasis, It is one of the oases of the western desert of Egypt, and in it there are about 400 springs of hot and cold mineral and sulfurous water. Its center is the city of Al-Bawiti, and among the most important archaeological monuments of the Bahariya oasis are the tombs of the Twenty-sixth Dynasty, the cemetery of sacred birds, the remains of the Roman triumphal arch, the ruins of the temple of Isis, the ruins of a temple from the time of Alexander the Great, and the cemetery of the Valley of the Golden Mummies.

Day 01 itinerary: Cairo to the White Desert

Cairo Top Tours' qualified Egyptologist guide will pick you up at your Cairo or Giza hotel. After that, you will travel around four hours from Cairo to Bahariya Oasis, Egypt's northernmost oasis in the Western Desert, in a contemporary air-conditioned vehicle.

Your tour will begin with a memorable visit to the Temple of Alexander the Great, Egypt's lone temple to this great Macedonian conqueror. One of the most significant Egyptian deities worshipped in the Greco-Roman oasis of Bahariya, Amun, is shown on its walls as being offered by Alexander the Great in the guise of ancient Egyptian monarchs. It is likely that the temple was constructed to honor Alexander the Great's journey via Bahariya to the Temple of Revelation in the Siwa oasis.

Your second step will be to the Golden Mummies Museum, which is the second largest archaeological discovery. According to identical archaeological sources quoted by local media, the tomb, which was officially reopened on November 12, 2021, was discovered in the late 1990s by an Egyptian mission headed by the famous Egyptologist Zahi Hawass and was named Golden because it includes gilded and gold items.

You will be given the opportunity to explore the area at your own pace following the enjoyment of a delectable catered lunch at the Oasis. See the breathtaking sunset over the oasis by taking a land cruise to the top of the Black Mountain for an absolutely stunning view.
