Sharm El Sheikh

If you are looking for something amazing to do while you are living in Sharm El Sheikh, our day trip to the colored canyon and blue hole is regarded as one of the most amazing excursions that allows you to fully immerse yourself in the enchanted beauty of nature.

The many colorful mountains in the Sinai desert create an artistic image that touches people's souls. These valleys are known as canyons, and they include a white canyon, a large canyon, a colorful canyon, an Arada canyon, a Salma canyon, and finally, a colorful canyon, which is the best and most beautiful of them all because the mountains there are mixed with a variety of colors. It is a natural masterpiece and is regarded as one of the natural wonders in the land of Sinai.

So that, Cairo Top Tours provides you with a unique opportunity to explore the Colored Canyon, which is not just a valley but a maze between mountains that range in height from 40 to 80 meters. The mountains are painted in a variety of colors, including yellow, purple, and red, in distinctive swirl-like patterns that show that even the world's best painters could not create such a beautiful painting without carefully examining and analyzing them for a considerable amount of time.

You will also enjoy a unique visit to the Blue Hole, where you can view the natural colors and rock formations and stop at a small oasis for a closer look. Next, ride along the coast on camelback to the Blue Hole, a popular diving and snorkeling spot 10 kilometers north of Dahab on the eastern coast of the Sinai Peninsula in the Gulf of Aqaba. Let the stresses of everyday life float away as you immerse yourself in this relaxing environment. Enjoy the magnificent views from atop the camel and underwater; immerse yourself in this unique world and view myriad colorful fish and vibrant corals up close, or relax on the sand in the sun.
