Saqqara is very rich with tombs and pyramids for kings and nobles. When you reach Saqqara, you will be able to see the first pyramid on earth of King Djoser, which was the first attempt to build the pyramids. The Egyptian pharaohs planned and executed a great construction that amazed the whole world for thousands of years with the genius art of architecture.

When you see it, it will make you wonder how the one-ton and three-ton have been made and carved carefully to create this massive pyramid to protect the king in their second life after death. The pyramids are still revealing a new secret for us and for the archeological every day. You can also after discovering the pyramids, have one of the optional activities of watching the pyramids from a high point on a camel ride or horse ride or enjoy the quad bike tour in the desert of Giza governorate around the pyramids.

Let's see one of the fascinating temples of the Great Sphinx which is one of the largest statues in the world. The statue dates back to the reign of King Chephren; some archeologists believe that the statue of the Sphinx would be bigger if the process of building it was finished due to the discovery of Mark Liner and Zahi Hawass for tools and large stones that were used in the process.

Then we will see one of the most important temples in Egyptian history which is the Valley Temple where the ancient Egyptian scientists and priests were gathered to prepare the dead body of the king or the nobles to be mummified to be protected and attended during the second life. After seeing these great treasures, it is time to rest and for the experience of the local Egyptian cuisine dinner.

After finishing your meals, let's go to see Memphis which was the administrative capital in ancient Egypt by King Narmer. Memphis was known as the white city for its white color walls.
