Banana Island day pass in Luxor East Bank

Travel in a comfortable, air-conditioned luxury vehicle as it's going to pick you up from the hotel at the initial hours of your day. An expert tour guide will accompany you to narrate the historical significance of each of your destinations. Be prepared for an adrenaline-filled tour through some of the most breathtaking landmarks in Luxor.

First off, Banana Island is a secret gem among the extraordinary Nile treasures. The destination is a lush green gem filled with famous banana plantations, tropical fruit trees, and a very quiet atmosphere.

Relaxing boat rides to Banana Island will cool the breeze and offer lovely views of the river. Inland, you can stroll through the orchards while tasting fresh bananas and sipping traditional Egyptian tea while taking in the scenic beauty and wildlife around you. This stop is refreshing and perfect for hiding away from city ferment.

Then you will visit the huge Luxor Temple, arguably one of the most magnificent ancient monuments in the world, built more than 3,000 years ago. The Temple is situated to the east of the Nile and is a fine example of Pharaonic architecture dedicated to the worship of Amun-Ra. Walk along the Avenue of Sphinxes, marvel at the towering obelisk and colossal statues of Ramses II, and discover the intricate carvings that tell stories of ancient Egyptian rituals, festivals, and divine kingship.

The last point in your travel itinerary is Karnak Temple, renowned for being the most famous of the ancient Egypt shrines. This extensive, spacious area of approximately 200 acres hosts impressive temples, sacred lakes, and massive columns forming hypostyle halls. Walking through the Great Court and around the sanctuaries dedicated to different gods, your guide will reveal the mysteries of the Karnak, from its orientation to the stars and celestial movements to its importance in Pharaonic ceremonies.
