If you want to buy any beverage during meals, you will pay for it.

If you would like to tip the Cairo Top Tours crew who will assist you throughout your safari tour, it will not be included in the price.

Itinerary

Day 1: Exploration Tour to the impressive Bahariya Oasis

Now is the time to begin your wonderful adventure with the Cairo Top Tours team to one of the most beautiful oases in the world, the distinguished Bahariya Oasis. Your specialist and professional tour guide will meet you for the first time in the lobby of your hotel in Cairo or Giza to travel together to the charming Bahariya Oasis. Upon arrival, you will visit one of the most beautiful archaeological sites, a priceless treasure: the Valley of the Golden Mummies.

This valley is the largest cemetery discovered in Egypt at the beginning of this century, dating back to the famous Greek and Roman eras. These tombs contain a large number of mummies, up to 250, belonging to the high aristocracy that lived in the Egyptian oases. Although no inscriptions or texts were found inside these tombs detailing the names of the vast majority of them, many of the private belongings found inside these tombs, which contained precious treasures of jewelry and gold coins, clearly revealed the identities of their owners and also unveiled many secrets hidden for thousands of years.

You will also visit the famous Temple of Alexander the Great, which consists of 45 beautiful mudbrick chambers. However, the temple entrance, the two sacred chambers, and the temple wall were built of solid stone. This majestic temple is preceded by a granite altar. Several fine cartouches have been found, revealing that this temple was dedicated to Alexander the Great. There is a magnificent scene and engravings depicting Alexander the Great making offerings to the deities.

You will also see the impressive Temple of Ain Meftala, which consists of four shrines dating back to the Twenty-sixth Dynasty. These shrines were overseen by the famous priest Shebenkhonsu and completed by the governor of the Bahariya Oasis, Djedkhonsu Iufankh, during the reign of the powerful King Ahmose II.

We will stop for a delicious Bedouin lunch, and then we will move to the Black Mountain region. You will climb English Mountain, which is associated with several important historical events dating back to the British occupation of Egypt. It was given this name because of the British occupation forces stationed there during the British occupation of the oasis. The ancient ruins on its summit date back to the famous World War I. The mountain is distinguished by its majestic black peak, which contains rare basalt stones, a volcanic rock that indicates ancient volcanic activity in the region. It reaches a height of 200 meters.

You will spend the night in one of the comfortable hotels in Bahariya to be ready to explore the White Desert the next day.

Meals: Lunch, Dinner

Day 2: New exciting Adventure in the White and Black Deserts

After breakfast at your comfortable hotel, you will get ready to visit one of the most beautiful salt lakes in the world, the magnificent Bahariya Oasis Lake. This lake is home to many rare bird species and is renowned for its significant therapeutic benefits. You will enjoy a swim in the crystal-clear waters of this lake. We will stop briefly so you can enjoy your delicious, freshly prepared lunch in Bahariya.

Now it's time to witness the unique and picturesque beauty of the famous Black Desert. It was declared a nature reserve in 2010 due to its rich and remarkable biodiversity and is recognized as an important global scientific research area. The second-largest dinosaur skeleton in the world was discovered near the famous Al-Dast and Al-Magrafa Mountains in the Black Desert.

You will visit the enchanting Wadi Al-Haiz, which enjoyed an unprecedented period of prosperity during the famous Roman era. This valley was an important site for abundant agriculture. It was an important site for grape cultivation and wine production. The remains of a huge old factory were discovered in this important area in 1988. Several large, luxurious palaces were discovered in this area in 1940.

You will see the distinctive Crystal Mountain, which is an impressive mountain of precious, diverse crystals. It contains more than 12 rare types of crystal, clustered together in a massive mountain mass once filled with thousands of colorful glass pieces. We will then move on to explore the dazzling White Desert, famous for its breathtaking beauty. The White Desert Reserve includes several unique and beautiful desert trees and rare, endangered animals, such as the white gazelle and the wild sheep.

You will also see the Valley of Agabat, which is distinguished by its magnificent rock formations of various shapes and sizes, dominated by diverse soil colors created by nature millions of years ago. It is located in a high area in the middle of the reserve and is not related in any way to the formations of the red planet, Mars. You will enjoy a wonderful camping experience in the White Desert. You will enjoy your delicious dinner at the camp.

Meals: Breakfast, Dinner

Day 3: End of your amazing safari:

Upon waking, you'll have a tasty breakfast in the charming White Desert. Once upon a time, the White Desert was teeming with people. The carvings and decorations adorning the walls of the beautiful White Cave are evidence of an ancient civilization that flourished in this region 10,000 years ago. These carvings are delicate animal motifs that reflect the traditions of Nubian rock art. Drawings of human hands also adorn the cave walls.

We'll then transfer you back to the spectacular Bahariya Oasis for your return trip to Cairo. We'll drop you off at your cozy and famous hotel in Cairo or Giza.

Meals: Breakfast
