

Tour to the Egyptian Museum of civilization and quad Bike

Price Starting From : \$165

Day Tour
Egypt
Cairo, Giza

Since its inauguration in 2021, the National Museum of Egyptian Civilization (NMEC) in Fustat has ranked among Egypt's best museums. Creative activities and laboratories are the secrets of its success. Don't miss the chance to visit it and explore it with Cairo Top Tours.

The NMEC is not just a museum, but a scientific, cultural, and artistic institution that aims to develop the minds of its visitors.

The NMEC is also known among Egyptian museums for its modern laboratories. There are two primary categories of laboratories within the NMEC. The first is dedicated to the restoration of ancient pieces and private collections, while the second is dedicated to scientific studies and research in other sciences."

The exterior of the museum building, although not administratively dependent on the museum, contributes to the attractiveness of the NMEC. These include Cairo Lake and its garden, with their entertainment activities and restaurants. The NMEC is also at the center of new national projects, such as the creation of the Fustat Gardens.

The highlight of every thrill-seeker's vacation to the Giza Pyramids is an amazing quad safari. Get away from the city and come see our breathtaking countryside in a way that will make your heart race and your adrenaline spike. Wide-open spaces, gravel roads, and dirt tracks are attractive to you. It's a filthy yet exciting experience. No need to be an expert, these all-terrain vehicles are perfect for beginners and are very safe to operate.

Tour to the Egyptian Museum of civilization and quad Bike in Giza

Our guide will meet you from your hotel to the National Museum of Civilization through our professional representatives.

The reason it's called the Museum of Civilization is that the most important thing here is the very concept of civilization. It's not about a specific era or time. Each display case tells a different story or concept of civilization.

The choice of the city of Alfostat as the site of the museum was carefully considered, as its geographical setting contains traces of different civilizations, providing the best evidence of Egypt's tolerance of religions as the cradle of civilizations.

The pharaohs established a large city where the Babylonians made a settlement when they descended on Egypt; the Romans used the city as their defense center for both the maritime and tribal fronts facing any foreign aggressor against Egypt.

The museum is divided into two separate sections, one chronological and the other thematic.

It covers many time periods, such as ancient, pharaonic, Greco-Roman, Coptic, medieval Islamic, modern, and contemporary. The thematic sections include: the dawn of civilization, the Nile, writing, state and society, material culture, beliefs and thought, and the Royal Mummies Exhibition.

Now it's time to enjoy the one-hour quad bike ride and then you will be transferred to your hotel at the end of your tour.
