

Top Day Trip To Luxor From Aswan by Car

Price Starting From : \$110

1 day
Egypt
Luxor, Aswan

At the crossroads of a history of great antiquity and dimensions stands Thebes with its gilded obelisks and gilded walls, fortified with its one hundred gates, unique before the eyes of history until the Day of Judgment. Come discover the splendor and history of this area with us.

Join us as we explore the Valley of the Kings, so named because the majority of the New Kingdom's kings from the 18th, 19th, and 20th dynasties (c. 1550–1069 BC) were interred in a dried-up river valley on the west bank of the ancient city of Thebes.

Karnak Temple, despite its apparent baptism, if we understand its architectural layout, we find it to be simple in its foundation and no different in its architectural style from Egyptian temples. However, due to its sanctity in the hearts of the Egyptians throughout their historical eras, the Pharaohs raced to add many buildings until it became extremely complex. Through it, you can learn about the ancient Egyptian thought and religion and how he meditated to create his own religion.

One example of the splendor of New Kingdom architecture is the magnificent temple built by Amenhotep III on the banks of the Nile in the modern city of Luxor. You will have an integrated experience with our guide, Professional and licensed on our tours, which include discussions about history, religion, archeology, customs, and traditions. Book now and enjoy with us. Book now and enjoy with us.

Top Day Tour To Luxor From Aswan by Car

Our staff will greet you in the foyer of your Aswan hotel after you are driven from Aswan to Luxor in an air-conditioned car. The Luxor Temple, once known as Ipt Reset, or the Sanctuary of the South, will be our first stop.

The splendor of New Kingdom architecture is represented by the beautiful temple built by Amenhotep III on the banks of the Nile in the city now known as Luxor. This pharaoh was not satisfied with his two additions to the Karnak Temple; he wanted to build a special temple to draw closer to the god Amun-Ra, the god of the empire, to boast of his works, and to record his divine origins on its walls.

This pylon was beautiful beyond beauty with the elegance of its columns, the harmony of its parts, the delicacy of its inscriptions, and the tranquility and splendor of its themes. However, Ramses II shattered this tranquility with his wars, which he depicted on its outer walls and on the facade of the huge pylon he built.

The Valley of the Kings comprises a total of over sixty tombs, in addition to about twenty incomplete tombs that are only pits. The Valley of the Kings' tombs are identified by a chronological finding number and the abbreviation KV (King's Valley). The tombs are excavated into a limestone mountain; some royal tombs, such as those of Ramses II (KV7), are as long as 213 meters and some fall as far as 100 meters into the mountain's interior. Scenes from the departed monarch's trip to the otherworld are painted on the walls of the chambers and hallways, and formulae from funerary texts are written there to assist the king in overcoming every challenge. Eventually you will return back to your hotel.
