Ferry tour to Petra from Sharm el Sheikh for the day

With our trips departing from Sharm El Sheikh, explore Petra. The vanished Nabataean culture constructed the ancient city of Petra. In the first century BC and the first century AD, the Nabataeans were at their height. The ancient city has touristic importance to Jordan, as well as other artistic and historical importance.

Enjoy a visit to the wonder of the world that will continue to amaze the world until the end of time. Be fully convinced that the first visit will not be enough to know some of the secrets of this amazing city in the middle of the pink mountains.

Enjoy your arrival at the outskirts of Petra, whose mountains appear from afar as if they were the surface of the moon, due to the splendor of the colors of the mountains and plateaus covered with clouds and the blue sky.

The Jordanian city of Petra has been selected as one of the “new” Seven Wonders of the World, which was reached after a controversial popular voting process that lasted several months, in which about 70 million people from around the world participated and was boycotted by the United Nations Educational, Cultural and Scientific Organization (UNESCO).

Exclusion

- Tipping
- Any additions
- Personal costs
- Prices apply for Egypt Easter trips and Egypt Christmas and New Year excursions.

[Itinerary](#)

Day tour by Ferry excursion to Petra from Sharm el Sheikh

You will be transferred from your hotel to Sharm El Sheikh. Your first stop will be Taba. Taba is located at the head of the Gulf of Aqaba between the eastern Taba mountain range, plateaus on one side, and the Gulf of Aqaba on the other. It is about 240 km north of Sharm El Sheikh. The area between Taba in the north and Sharm El Sheikh in the south represents the most important areas of attraction and tourism development in the southern Sinai Peninsula.

You will take the ferry boat towards Aqaba and finally towards Petra. Discover more about Petra and enjoy its history and the beauty of its colors. Archaeologists believe that Petra was inhabited in prehistoric times, and in the sixth century BC it was home to the Edomites who excelled in pottery making and were not interested in sculpture as much as the Nabataeans who created the sculptures of Petra.

It is naturally fortified and can only be entered through the "Siq" road, which is a narrow road, with sunlight seeping in between its two towering edges. Tourists and those heading to Petra take it on foot or the backs of animals or carts pulled by them.

After your tour is over, you will be taken photos and enjoy your adventure. You will be transferred back to your hotel in Sharm El Sheikh.
