Blue hole and colored canyon

Our company will provide transportation from your place by private car to the following places on this trip:
The Colored Valley
Blue Hole

When you walk inside the valley, you will be amazed by its formation and you will discover for yourself why it was named so. Its colorful walls welcome you with veins of mineral salts, which draw lines on its. For hikers, explorers, adventurers, and photographers, the Colored Canyon is the perfect place to visit. We drive four-wheel drive vehicles over a road with roughly 40 kilometers of gravel trails when we visit the canyon. Therefore, people who are elderly or have back or spinal conditions should not participate in this trip.

It is roughly 800 meters long and is made up of colored rocks that resemble dry riverbed slopes. It is known that it was formed by rainwater and winter floods that dug channels for themselves in the middle of the mountains.

Then we move to the natural pool, which includes the most beautiful coral reef in the world, and tourists and Egyptians flock to dive inside it. The most breathtaking natural scenery you will ever witness was created by a meteor that fell from the sky and created a deep blue hole in the center of the Red Sea.

The Blue Hole, or what is known as the mysterious magical blue hole in the city of Dahab, where foreigners from all over the world come in droves to dive, is the world's most beautiful cave or diving tunnel in the world.
