1-day tour
Egypt
Sharm El Sheikh

A glass-bottom boat is a special vessel that has sections made of glass and other transparent material so the passengers can see through the boat into the sea. The passengers remain dry out of the water while the boat gives them a view just like a scuba mask, to see the aquatic life.

Banana boating in Sharm el-Sheik is one of the water sports in Sharm el-Sheik that can be scheduled for a holiday. It is also a fun activity that doesn't consume a lot of time or tire the traveler too much.

Sharm el-Sheik offers 15-30 minutes of banana boating. This is done five to fifteen meters below the beach's edge. Riding a big inflatable banana boat while being towed by a speedboat is the activity. As the banana boat pulls the balloon toward the water, the occupants get an exhilarating trip.

Savor desert safaris and adventures at dusk, four-wheel drive cars in the heart of the desert, hills and sand dunes in the desert regions, rock formations and formations, and Sharm el-Sheik's mountainous landscape.

Beach Buggy Safari

An exhilarating safari in Sinai for adventure lovers, nature lovers, the desert, mountain lovers, and beach lovers. The trip starts with a four-wheel-drive vehicle picking you up from your hotel at a fixed time, accompanied by one of the company's guides. You will then be taken in a beach buggy to start your adventure. Touch nature; take souvenir photos; sip Bedouin tea beside a group of colorful mountains; look at mountain climbing sites; watch more of the beach; and go on an awesome adventure in a wilderness beauty.

- Please note that Sharm el-Sheik Tours does not include gratuities.
- Prices apply to Egypt Easter Tours and Egypt Christmas and New Year Tours.

Banana & Glass boat and Quad bike Safari Sharm EL Sheikh Tour

You will be picked up by our tour agent from your hotel in the morning and taken to the main dock to join the banana boat. A banana boat is an inflatable recreational watercraft that is also called a jet ski and is sometimes just called a banana.

We then take you on a sailing adventure and discover the most beautiful underwater scenery. See the colorful coral reefs up close without having to deal with the hassle of diving. With 360-degree views and a glass bottom that lets passengers see pufferfish, octopuses, and schools of vibrant angelfish darting in and out of the coral reef, the speedboat is perfect for families with small children and non-swimming individuals.

A safari tour, which is very different from earlier trips, is how your journey comes to a close. Experience the ambiance of the desert, get to know the Bedouins, and appreciate their hospitality... Finally, you arrive back at your preferred location.
