Day 2 : Giza Pyramids & Sphinx and Cairo attractions

Before leaving the hotel today, you will enjoy breakfast followed by meeting the expert guide who will accompany you. Cruising to a peaceful desert retreat using contemporary climate-controlled motor vehicles from Cairo roughly takes four hours.

The first step of your investigation will lead you to a historic burial ground that exhibits an outstanding collection of well-preserved ancient artefacts. The hidden chamber with countless golden relics from the past world came to light after a local by chance discovered it. Travel to the tombs where former rulers of this distant desert community sat in power during their historical era.

You should now embark on a pilgrimage to a vital historical temple, which many experts claim was constructed by an important legendary monarch. Time together with natural elements has transformed the structure, yet several original writings from its past survive to this day. The site features the ruins of an ancient city centre, which provides critical information about everyday life in the time of past residents.

Recover your energy by having lunch at a hometown establishment and then establish your hotel residence. During the afternoon you have the chance to unwind and refresh by bathing in a natural spring with mineral content.

Use the late afternoon to participate in a guided tour of the oasis community and learn about the local traditions and ways of living from its inhabitants. After taking a brief hike, you can climb to an elevated point that reveals the remaining parts of an old structure situated on the summit. The sunset brings out magnificent panoramic vistas of the oasis while transforming the sky into orange and gold tones that create a spectacular memory.

Overnight stay at the oasis.
