You'll have plenty of time to wander around and take in the incredible views! Once at the pyramids, we'll give you a brief history and explain some of the intricacies of this ancient monument.

The Giza Pyramids are one of the oldest and most iconic archaeological sites in the world. They are located on the outskirts of Cairo, in southern Egypt. The Giza Pyramids are made up of three main pyramids, which were built over a period of around four hundred years, from 2560 to 2460 BC.

Here, you'll see some of the most important religious sites in Egypt, as well as some of the city's most stunning architecture. Visit the Coptic churches in Old Cairo, the hanging church built on top of an old Roman tower, the Church of St. George, and the holy family crypt church to see where the holy family stayed for three months while traveling through Egypt.
