Your first stop is the awe-inspiring Great Pyramids of Giza. Your exploration starts with the Pyramid of King [Cheops](#), an architectural marvel constructed by the hands of approximately 100,000 workers, as estimated by archaeologists and historians. You'll learn about the immense effort that went into building this iconic structure.

Next, you'll encounter the grand Pyramid of King [Chephren](#), built almost two decades later using millions of limestone blocks. This pyramid was created by the son and heir of Cheops, belonging to the 4th dynasty Pharaohs. Nearby, you'll find the smaller Pyramid of Mycerinus. Your knowledgeable guide will provide insights into the construction techniques employed by the ancient Egyptians.

From the high Giza plateau, take in the breathtaking panoramic view of the entire necropolis. If you wish, you can opt for an unforgettable camel ride around the Giza Pyramids with the assistance of your Bedouin guide, perfect for capturing stunning photographs.

Descend to the iconic [Sphinx](#), a monumental statue with the head of a king and the body of a lion. Originally known as Shepsep-Ankh, meaning the living image of the deity, it is believed that the Greeks derived the name "sphinx" from this ancient title.

Explore the Valley Temple of Chephren, an astonishing structure that was an integral part of the second pyramid's architectural complex. It served as the site for the mummification of the Pharaoh's body and is the only remaining valley temple in Giza.

Take in a panoramic view of all the Giza pyramids together, and our team will assist you in capturing the most amazing photos. You can also choose to visit the Solar Boat Museum, although an additional ticket is required.

Afterward, indulge in a delicious lunch at a local restaurant before heading to the Saqqara plateau. As a grand finale, you'll have the opportunity to enter either the pyramid of King Teti or the pyramid of King Unas.

Your final destination for the day is [Memphis](#) City, the capital of Egypt for nearly a millennium during the era of pyramid construction. It held immense cultural and religious significance throughout Egypt's three thousand years of ancient history.
