Day5- Aswan high dam and the Abu simbel temple

After enjoying a delicious breakfast at the hotel, our tour guide will accompany you to explore the attractions of Aswan.

The [Aswan High Dam](#), constructed in the 1960s, stands as an impressive embankment dam spanning the Nile River. Often referred to simply as the Aswan Dam, it holds significant importance compared to the older Aswan Low Dam, which was first built downstream in 1902.

Following the success of the Low Dam in harnessing the Nile's potential, the government prioritized the construction of the High Dam after the Egyptian Revolution of 1952. It was envisioned to support Egypt's industrialization by providing hydroelectricity, enhancing agricultural water storage, and improving flood management. Like its predecessor, the High Dam has profoundly influenced Egypt's economy and culture.

After exploring Aswan's attractions, we'll have lunch at a nearby eatery before proceeding to Abu Simbel in an air-conditioned minibus. Renowned for their remarkable construction, the two temples of [Abu Simbel](#) stand as prime examples of ancient Egyptian architecture, showcasing the grandeur of the New Kingdom era. Recognizing their significance, UNESCO and the Egyptian government collaborated to safeguard these temples from flooding.

The main temple, dedicated to Ptah, Re-Her-Akhtey, Amun-Re, and Ramesses II, is alternatively known as the Sun Temple of Ramses II due to its massive size and solar alignment.

Additionally, [The Temple of Queen Nefertari](#), also referred to as the Temple of Hathor, symbolizes the union of Ramesses II, Hathor, and the Sun God. Spend approximately three hours exploring these awe-inspiring temples before returning to your accommodation in Aswan for the night.

Day6- Visit Philae Temple and fly to cairo

After breakfast and check-out, our tour guide will escort you to visit [The Philae Temple](#), one of Egypt's most stunning temple complexes. Located immediately south of the former Aswan Dam, reaching the ruins requires a water taxi ride to the island of Aglika. The temple was relocated to its current position to prevent it from being submerged forever by the construction of the High Dam. During the meticulous reconstruction of the complex in its new location, the original plan and design were faithfully preserved, including landscaping the island to resemble its former setting. Philae flourished as the center of worship for the goddess Isis during the Ptolemaic Dynasty.

Upon completion of your visit, you'll be dropped off at Aswan airport to catch your flight to Cairo. Upon arrival in Cairo, you'll be transferred to your hotel for an overnight stay.
